

## SATELLITE SYMPOSIUM

### Biotechnology\_ medicine and health experiences and advancements in Italy

09.00 Welcome address by the IBS Scientific Committee delegate  
Lilia Alberghina

09.10 Topic Introduction  
Giorgio Cantelli-Forti

**Session 1:            **Neurosciences****  
*Facilitator:* Laura Calzà

09.30 Topic Introduction  
Laura Calzà

10.00 Abstract Presentation

10.30 Lecture: Nanotechnology and neurodegenerative disease  
Bruno Samorì

11.00 Q&A

**Session 2:            **Molecular medicine and new drugs****  
*Facilitator:* Sergio Ferrari - Simone Maccaferri

11.30 Topic Introduction  
Simone Maccaferri

12.00 Pharmacogenomics: new roles and applications for old molecules  
Sergio Ferrari

12.30 Abstract Presentation

13.00 Lecture: Pharmacogenomics and hypertension: the Hypergenes Project  
Daniele Cusi

13.30 Q&A

14.00 – 15.00 BREAK

**Sessione 3: Staminal Cells**  
*Facilitator:* Paolo Bianco

15.00 Post-natal stem cells of mesodermic origin  
Paolo Bianco

15.30 Abstract Presentation

16.00 Q&A

16.30 **Round Table: Which future for the Italian biotechnology?**  
P. Bianco, L. Calzà, C. Lusenti , S. Ferrari, S. Maccaferri, M. Marzaloni, R. Piva

18.00 **L.I.L.T. Award**  
Facilitator: Francesco Domenico Rivelli
